

Business Honors

Graduation Requirements

To graduate with Honors in the College of Business, students must maintain a GPA of 3.45 in 15 semester hours of upper division Business Honors courses. The Honors Director will be the advisor for Honors Program students and register students for Business Honors courses. The Honors Director schedules a meeting each semester to advise and monitor progression toward meeting program requirements. Honors Program students, under the sponsorship of a faculty member of their choice, must complete a senior honors project. Just prior to graduation, these students must present their findings at the bi-annual honors thesis presentation/graduates' social. Completion of a thesis is required for the designation, College of Business Honors Program Graduate, to be placed on the diploma.

Contact the Director of Honors in the College of Business for details concerning courses and special opportunities.
