Any students with interest in GIS are welcome!
No Prerequisites!

The Geospatial industry is worth an estimated $30 Billion a year and growing. Geographic Information Systems (GIS) are an information technology that enhance career opportunities for such majors as:

- Biology
- History
- Sociology
- Anthropology
- Criminal Justice
- Sustainable Development
- Public Administration
- Geology
- Technology
- Political Science
- Computer Science
- Business and CIS

This course is based on one lecture and lab session per week. Students will complete lab exercises and a short final project.

Fall 2006
Mondays & Wednesdays  2:00-3:15 pm
