Appalachian Enrollment

Have you ever been enrolled at Appalachian State University?

Application Plans

You may apply for one or two programs using this application. If you wish to be considered for admission to more than two programs or do not want to use the same references (if applicable), then you must create an additional application(s) for the other program(s).

Want to apply for a dual degree program? (Click [here](#) to see the current list of dual degree programs.) Answer "Yes" on this question and the next question.

Do you want to apply for more than one program?

Multiple Program Options

Dual enrollment is the pursuit of two programs simultaneously. Certain restrictions apply when you choose to pursue two degrees. Please click [here](#) to review the full, detailed policy on dual degree enrollment.

Do you want to be considered for dual (concurrent) enrollment?

Please select which option best describes your dual enrollment intent.

A complete list of our programs can be found [here](#), including the specially approved "Dual Degree Programs" offered.

I want to apply to

Please select the dual degree program for which you wish to apply.

Note: You are not limited to the Dual Degree Programs listed in the bulletin and may opt to pursue two master's degree programs simultaneously as a customized dual degree program. You should make both programs aware of your interest and plans for dual enrollment prior to applying so that they may discuss with you whether or not dual enrollment would be good fit for you. Some degree programs are highly demanding and may discourage dual enrollment.
